

THE ATWELL FOUNDATION

Vision

The Atwell Foundation aims to place its footprint on all member states of the Caribbean Community by 2040. Due to the ever increasing poverty and lack of educational investment across Guyana, our niche of projects include the development and maintenance of sporting facilities in schools, libraries to provide resources for academic prowess in suffering schools, and the hosting of sporting and public speaking competitions to provide a platform for self expression and exposure.

In the future we would also like to include scholarships to The University of the West Indies in an effort to decrease brain drain levels. The goal is to be a consistent and reliable partner to Caribbean citizens, providing a platform for current and future generations of Caribbean patriots to reach their true potential.

Following our emphasis on education, we hope to open pediatric hospitals to offer first class medical care across the region.. Caribbean children have suffered for too long from a lack of basic resources.

Sporting and Education

A horizontal sequence of four circles connected by a thin line. From left to right: a large white circle containing the word 'Libraries', a large blue circle containing the word 'Facilities', a medium white circle containing the word 'Tournaments', and a small blue circle containing the word 'Scholarships'.

Projects

Library

Students will be provided with internet access and computers to be able to complete homework and prepare for examinations.

Soccer Field

Where they exist already, we would take on the responsibility of maintenance.

Multi Purpose Court

Many schools already have the existing area to accommodate tennis, basketball and volleyball. Paint will differentiate between sports and equipment will be donated as needed.

Combined Choir

The Atwell Foundation would like to revive the Inter-district combined choir competition.

Public Speaking Competitions

The Atwell Foundation would like to provide a series of Prepared Speech and Impromptu competition year round.
